STOCK IQ™

ARM YOUR SELLERS

Avoid customer service problems and churn by providing your salespeople the information they need when and where they need it.

Connect. Select. Go.

Access real time inventory information within your HubSpot Deal record after a simple connection between your ERP and HubSpot. Right-size product amounts with the click of a button.

Simple Integration

All you need is your ERP API keys and HubSpot administrative credentials to get started.

Real Time Data

Stock IQ presents product inventory levels from the warehouse location(s) you select in real time in the HubSpot deal record.

Item Control

Over-sold products are highlighted on the item list. Remove over-sold items completely or set units to the max available.

The Deal is King

Your sellers have stock level information where they need it - on the Deal record as they assemble their quote.
